Experience

Senior Product Designer, TourHero

Sep 2025 — Mar 2026

- Directed end-to-end design architecture for a 3-sided marketplace. Engineered AI-assisted customization workflows that tailor user intent into executable deliverables, eliminating a 4-14 day manual quote latency and saving 25 hours of weekly overhead
- Spearheaded the "Self-Launch" autonomous ecosystem, defining new systems that scale. Engineered high-density configuration tools that accelerated time-to-market from a 29-day bottleneck to same-day publishing

Product Designer, TourHero

Sep 2021 — Sep 2025

- Led 0 → 1 consumer product strategy as founding designer, architecting the end-to-end consumer journey and a 'readiness' portal that resolved complex post-purchase workflows
- Influenced core product development alongside engineering leads, translating multi-sided backend feasibility into scalable, centralized operational dashboards

UX/UI Designer, Errunds

Jan 2020 — Aug 2021

- Designed and launched 3 core MVPs across mobile and web: a consumer ordering app, a merchant processing dashboard, and a data-dense desktop admin portal for real-time inventory
- Architected a scalable visual taxonomy and component library for grocery categorization. Validated multi-SKU navigation via usability testing, achieving a 100% success rate and cutting average completion time by 50%

Skills

AI Design Workflows: Figma AI, Lovable (Rapid Functional Prototyping), Prompt Engineering, Human-in-the-Loop (HITL) Logic

Strategic Product Architecture: Ideation to Launch, End-to-end Lifecycle, Systems Thinking, Simple & Intuitive User Flows

Design Operations & Research: Design Systems, Cross-functional Partnership, Usability Testing, Web & Native Apps

Education

Designlab, UI Design + Visual Design

General Assembly, UX Design

City University of New York—Hunter College, B.A. in Psychology
